

North Dakota Affordable Housing Facts

What is “Affordable”?

The commonly-accepted standard for housing affordability is housing costs that are no more than 30 percent of a household's gross income. Housing costs under this standard generally include the cost of utilities.

In North Dakota, the median household income is \$63,837.¹ At 30 percent of that income, the average North Dakotan can afford to spend \$1,595 per month for housing costs. According to the US Department of Housing and Urban Development, the median rent in North Dakota for a two-bedroom apartment is \$841 per month,² requiring a hourly wage of \$16.18.

Who are the Cost Burdened North Dakotans?³

Office Support
\$38,570*

Cashier
\$23,860*

Housing Challenges

North Dakota’s communities face a myriad of housing challenges which will take forward thinking and a commitment at all levels to solve including:

- Aging housing stock will require extensive rehabilitation.
- Housing costs including land and construction costs have increased dramatically.
- Workforce shortages to build housing especially in rural communities.
- Homebuyers face competition for affordable homes.
- Limited affordable housing options make workforce recruitment and retention difficult.
- Resources for affordable housing development are limited.
- Housing needs for the state’s senior population continue to grow.
- Special populations including people with disabilities, the homeless and those at risk of homelessness have unmet needs for housing with supportive services.
